Reporting of Suspected Abuse of a Child

Child abuse by school employees is not tolerated. All district employees are subject to this policy and the accompanying administrative regulation. If a district employee is a suspected abuser, reporting requirements remain the same. The district will designate the Executive Director of Elementary Programs or the Executive Director of Secondary Programs to receive reports of child abuse by district employees and specify the procedures to be followed upon receipt of a child abuse report. The district will post in each school building the name and contact information of the person designated to receive child abuse reports, as well as the procedures the Executive Director of Elementary Programs or the Executive Director of Secondary Programs will follow upon receipt of a report. When the Executive Director of Elementary Programs or the Executive Director of Secondary Programs takes action on the report, the person who initiated the report must be notified.

Any district employee having reasonable suspicion to believe that any child has suffered abuse or that an adult has abused a child shall immediately report to County Department of Human Services, or the Lake Oswego Police Department, and the administrator. Information reported shall be confidential.

Upon request, the district shall provide records of investigations of suspected child abuse by a district employee or former district employee to law enforcement, Department of Human Services or Teachers Standards and Practices Commission.

Any district employee participating in good faith in the making of a report, pursuant to this policy and Oregon law and who has reasonable grounds for the making thereof, shall have immunity from any liability, civil or criminal, that might otherwise be incurred or imposed with respect to the making or content of any such report. Further, the initiation of a report in good faith about suspected child abuse may not adversely affect any terms or conditions of employment or the work environment of the complainant. If a student initiates a report of suspected child abuse by a district employee in good faith, the student will not be disciplined by the Board or any district employee.

The district shall establish written procedures to provide annual training: 1) for district staff in the prevention and identification of child abuse and on the obligations of district employees under ORS 419B.005 as directed by Board policy to report suspected child abuse; 2) for parents and legal guardians of students attending district schools on the prevention, identification of child abuse and the obligation of district employees to report suspected child abuse, separate from district staff training; and 3) designed to prevent child abuse available to students attending district operated schools.

The superintendent shall implement such regulations as are necessary to accomplish the intent of this policy and to comply with state law.
