Superintendent's Consulting Activities

The Board expects the superintendent to devote full attention and energy to the concerns of the ESD. The Board, however, recognizes the superintendent's obligation to contribute to the profession of ESD administration and to the field of public education in general. This policy, therefore, does not prohibit the superintendent from undertaking consulting work that does not conflict with obligations to the ESD. Any such task that requires the superintendent's absence for two or more consecutive working days will need notification to the board from the superintendent.

END OF POLICY
