Preparing Building Fund Estimates/Budgets

It shall be the responsibility of the maintenance supervisor working with the superintendent to develop the building fund budget. Where there are new building projects, remodeling or maintenance projects, the maintenance supervisor shall be responsible for working with architects, contractors, the superintendent, and those agencies which apply building codes to assure that the interests of the district are protected. Building fund budgets shall be submitted to the Board for final decision by the superintendent, assisted when appropriate by the maintenance supervisor.
