Immunization of Students

The Board recognizes the obligation of parents to have their children properly immunized and to provide to schools' accurate records of immunization. Such immunization is critical to prevent the spread of communicable diseases.

Therefore, no student will be allowed to enroll or continue school attendance without first presenting evidence of compliance with Oregon Revised Statutes and Oregon Administrative Rules requiring immunization.

The school principal is authorized to exclude any student from school attendance for non-compliance with the statutes and rules. The school principal will notify the parent or guardian in writing of the reason for the exclusion, stating that the student will continue to be excluded until the student has complied with the requirements. The notice will also inform the parent that a hearing will be afforded upon request.

The policy is in effect for all students not exempted for religious or medical reasons.
