

Assignment/Reassignment of Administration Personnel

With the approval of the Board of Education, the superintendent will make provision for the assignment/reassignment of administrators in a manner that will provide reasonable continuity of administrative leadership and the stimulation derived from change at regular intervals. Administrators shall be subject to either voluntary or involuntary reassignment to administrative positions.

Support for administrator reassignment is based on a number of assumptions, including but not limited to the following:

1. It may be beneficial and desirable to provide for broader utilization of the ideas, skills and administrative style of individual administrators than may be possible within a single assignment;
2. Individual growth may be stimulated by new challenges created or present in a new assignment;
3. The skills of an individual may be needed in a different administrative position.
