

Home-Schooling – Part-Time Enrollment**

The district provides for part-time enrollment in the district's regular instructional program and participation in co-curricular and extra curricular activities (e.g., band, orchestra, athletics) for those students not regularly enrolled in a public or private school program.

Part-time enrollment is subject to the following conditions:

1. Part-time enrollment is permitted on a space available basis;
2. The parent is responsible for providing transportation, if needed to and from school;
3. Students are subject to the same standards for behavior, attendance policies, rules, regulations, and fees as regularly enrolled students;
4. Participation in co-curricular and extra-curricular activities is subject to the rules of the governing voluntary association, district policies, and district regulations and procedures;
5. The placement of home schooled students in district classes is subject to the same procedures as for regular students.

The district will grant high school credit for district courses completed by part-time students. In order to qualify for a Medford high school diploma, these students must meet the promotion and/or graduation requirements described in policy IKF. Granting of credit and/or diplomas is subject to all rules and regulations that apply to regular students. Students who are enrolled part-time may pursue alternative options for gaining credit available to all enrolled students.

Parents who elect to educate their children at home are encouraged to pursue GED or community college diploma alternatives.

Upon request from the parent, home schooled students may take the Oregon state assessment tests, which are administered during regularly scheduled testing periods.
