Career Education

The Board of Education recognizes that career education is a developmental process designed to help all individuals prepare for their life roles, to include the consumer, the family, the community, occupations, and avocations. The Board of Education also recognizes that career education enables students of all ages to examine their attitudes, interests, aptitudes and abilities as they relate to career opportunities, and to make valid decisions regarding further education and future endeavors.

Therefore, the Board of Education will provide an opportunity for career education for all students using a continuum of objectives beginning with career awareness in the elementary schools, continuing with career exploration in the middle level schools, and extending through career preparation in the high schools.
