

Medford School District 549C

Code: **JC-AR(2)**

Revised/Reviewed: 2/16/88; 3/01/11

North High School/South High School Boundary

The boundary line between North Medford High School and South Medford High School is defined as follows:

The boundary begins at the border of Medford School District 549C and Central Point School District at the intersection of the Central Oregon and Pacific Railroad line and Beall Road. The boundary extends down the middle of the railroad line to the Highway 238 overpass, turns west at Highway 238/Rossanley Drive, continues down the middle of Highway 238, to North Ross Lane, and turns south continuing down the middle of the road to Maple Park Drive. The boundary turns east at Maple Park Drive running between the tax lots until it connects with West Jackson at McAndrews. It continues east down the middle of Jackson Street to Jackson Drive, down the middle of Jackson Drive to Hillcrest Road, turns east down the middle of Hillcrest Road to Cherry Lane, turns south on Cherry Lane and follows the eastern border of the tax lots on the eastern side of Cherry Lane to the district border with the Phoenix-Talent School District.

While the district has published a map illustrating this boundary, the district maintains a database of current addresses through the information technology department. Should questions arise concerning a specific address, this database is the official source of the attendance area data.
