MESD Goal Setting

The Board recognizes its responsibility to the people for whose benefit the agency has been created. Accordingly, the Board will biennially adopt goals for the agency, consistent with the legislated mission, roles, powers and duties of MESD. The development of such goals is essential to enable MESD to pursue its mission to assist component districts and the Oregon Department of Education in achieving Oregon's educational goals by providing equitable, high quality, cost-effective and locally responsive educational services at a regional level.

The Board will provide, as part of the planning process, for annual assessment of progress toward meeting Board adopted goals. Such procedures will address identified needs having highest priority in the agency. Results will be reported to component district boards annually.
