Hazardous Energy Accident Prevention and Safety

Through its comprehensive safety program, MESD will attempt to prevent accidents by assuring a safe working and learning environment. Accident prevention instruction will be given to students and staff; safety procedures shall be taught; and other precautions will be taken in order to prevent accidents and potentially harmful situations.

MESD employees with potential exposure to hazardous energy will be trained in lockout/tagout procedures.

The superintendent and/or designee will develop administrative regulations for implementation of this policy.
