Acceptable Use Agreement for Students
using **Network Information Resources** through
Multnomah Education Service District
Students (except JDEP and YCEP Programs)

Responsibilities Summary

Students are responsible for good behavior on the internet and the MESD network just as they are in a classroom or a school hallway. Communications on the network are often public in nature. General school rules for behavior and communications apply.

MESD provides the school computer network for students to conduct research. Students who agree to act in a considerate and responsible manner may receive access to the network. Access is a privilege, not a right. Access entails responsibility.

Individual users of the Internet and the MESD network are responsible for their behavior and communications over those networks. All users agree to comply with MESD standards and to follow the rules as outlined.

Please sign this sheet in the appropriate places and return it to the school.

I understand that misuse comes in many forms, as described in the Acceptable Use Guidelines.
