## **Status of Programs/Services During Strikes**

The Cabinet Director or his/her supervisory designee is authorized to determine whether or not a program/service within his/her area of responsibility shall be recessed because of conditions prevailing at a strike site.

1. An on-site inspection by the Cabinet Director or his/her supervisory designee for purposes of assessing the situation at each site must precede a decision to recess the program or provision of services at that site.
2. On-site circumstances which, in the judgment of the appropriate supervisor, jeopardize the safety and physical well being of students or staff is the determining factor in the decision to recess.
3. A verbal report shall immediately be made to the Superintendent if a program/service is recessed due to the strike conditions. This shall be followed within three workdays by a written report to the Superintendent on the incident/situation.
4. The Superintendent will report to the Board.
