Development of Administrative Regulations (AR)

The Board delegates to the superintendent the function of specifying required actions and designing detailed arrangements under which the district will be operated in accordance with Board policy. These detailed arrangements constitute the administrative regulations governing the district.

In the development of administrative regulations the superintendent may involve, at the planning stage, those who would be primarily affected by them, for example, staff members, students, parents and the public. The superintendent evaluates and considers the counsel given by representatives of staff, students, parents and community organizations and will inform the Board of such counsel in presenting administrative regulations for Board review.

The superintendent will develop and the Board will adopt an administrative regulation when a state or federal law requires the Board to do so. The Board may also adopt administrative regulations when the superintendent recommends Board action. The Board will review all other administrative regulations submitted to them by the superintendent.
