

**Milton-Freewater
School District 7**

Code: **EBAA**
Adopted: 11/23/93
Revised/Readopted: 12/12/16

Reporting of Hazards

Regular routine inspection of all facilities, materials and equipment will be conducted to identify, report and correct hazardous or potentially hazardous conditions. Staff will be trained to identify and report such hazardous or potentially hazardous conditions.

The Safety Committee will develop and maintain a written hazard communication program for the district. All personnel who, during the performance of their duties, or in an emergency, may be exposed to hazardous chemicals will be informed and trained to deal appropriately with these chemicals. All employees will be trained to recognize and respond appropriately to the presence of hazardous chemicals.

The Board encourages any employee or citizen who knows of a condition which they believe to be hazardous in a school building or on school grounds or other district property, to bring the condition to the attention of the appropriate school official immediately. The principal, business manager or the superintendent are the usual officials to be notified. The official, so notified, shall investigate the reported hazard and shall take appropriate action.

END OF POLICY
