

Relations with Homeschooled Students**

The district recognizes the rights of parents to teach their children at home, provided their request has been processed and approved by the superintendent from the InterMountain Education Service District.

Further, the Board is willing to assist parents in this endeavor if a request is made through the superintendent. The district will furnish basic course descriptions, state minimum standards for elementary and secondary education and, when available, may furnish textbooks upon deposit of a loss/damage fee.

Students may, upon parent request, be allowed to participate in school district programs such as physical education programs, instrumental and vocal music programs, or other selected options if space and materials are available. Such students must then adhere to regular attendance procedures as established by the school and must avoid disruption of said programs.

Parents are responsible for transportation for students attending selected school offerings.

Only courses recognized by the state of Oregon will earn credits toward a diploma. The Board reaffirms its prerogative not to accept home instruction course credit toward graduation requirements.

Homeschooled students may participate in available interscholastic activities if the following requirements are met:

1. The student is in compliance with all rules governing home schooling and can provide acceptable documentation of compliance to the school district;
2. The student can meet the district eligibility requirements except the district or class attendance requirements;
3. Students need not meet class requirements of the voluntary association administering the interscholastic activities;
4. The student must meet one of the following:
 - a. The student must achieve the minimum score on an examination from the list adopted by the State Board of Education that places the student at or above the 23rd percentile based on national norms. The examination shall be taken at the end of each school year. The parent or guardian shall submit the examination results to the district. Students may participate while awaiting test results; or
 - b. The district may adopt alternative requirements, in consultation with the parent or guardian, that a student must meet to participate in interscholastic activities, including, but not limited to,

a requirement that a student submit a portfolio of work samples to the district for review to determine whether a student is eligible to participate in interscholastic activities.

5. The student must fulfill the same responsibilities and standards of behavior and performance including related class or practice requirements of other students participating in the interscholastic activity. The students must meet the same standards for acceptance on the team or squad. The student must also comply with all public school requirements during the time of participation;
6. The student must reside in the attendance boundaries of the school for which the student participates.

“Interscholastic activities” means athletics, music, speech and other similar or related activities.
