

**Immunization, Physical Examination, Vision Screening/Eye
Examination and Dental Screening****

Immunization

No student will be allowed to enroll or continue school attendance without first presenting evidence of compliance with Oregon Revised Statutes and Oregon Administrative Rules requiring immunization. Proof consists of a signed Certificate of Immunization Status form documenting either evidence of immunization or a religious, philosophical beliefs and/or medical exemption.¹

The building administrator/designee is authorized to exclude any student from school attendance for noncompliance with the statutes or rules. The building administrator/designee will notify the parent or guardian in writing of the reason for the exclusion, stating that the student will continue to be excluded until the student has complied with the requirements. The notice will also inform the parent that a hearing will be afforded upon request.

The district will comply with the Oregon Health Authority rules related to the district's immunization registry and the associated tracking and recall systems. This compliance shall include the waiver of the requirement of consent for release of information from or providing information to and the waiver of issues of confidentiality in regard to immunizations records.

The above policy statement affects all students not exempted for religious beliefs, philosophical beliefs or medical reasons.

Physical Examinations

The Board recommends that all students initially enrolling in school have a physical examination. Parents will be asked to complete a district "Health History" form when initially enrolling their children in the district and when registering them for seventh grade.

All students participating in athletic programs are required to submit to the district a School Sports Pre-participation Examination² form prior to their initial participation in a district athletic program. The form is to be completed and signed by a parent or guardian and a physician giving permission for the student to participate. The form shall be kept on file at school and shall be reviewed by the coach prior to the start of any sport season.

A student who is subsequently diagnosed with a significant illness or has had a major surgery is required to have a physical examination prior to further participation in extracurricular sports.

¹Documentation requirements for exemptions are outlined in ORS 433.267.

²Form available at www.osaa.org.

A student who continues to participate in extracurricular sports in grades 7 through 12 shall be required to complete a physical examination once every two years, thereafter. The physical examination is the responsibility of the parent/student and is to be paid for by the parent/student.

Vision Screening or Eye Examination

The parent or guardian of a student who is 7 years of age or younger and is beginning an education program with the district for the first time shall, within 120 days of beginning the education program, submit a certification that:

1. The student has received a vision screening or eye examination; and
2. Any further examination, treatments or assistance necessary.

The certification is not required if the parent or guardian provides a statement to the district that:

1. The student submitted a certification to a prior education provider; or
2. The vision screening or eye examination is contrary to the religions beliefs of the student or the parents or guardian of the student.

Dental Screening

The district shall file in the student's dental health record any dental screening certifications and any results of a dental screening known by the district. The district will provide to the parent or guardian of each student, standardized information developed by the Oregon Health Authority's dental director regarding dental screenings, further examinations or necessary treatments and preventative care including fluoride varnish, sealants and daily brushing and flossing.

The parent or guardian of a student who is 7 years of age or younger and is beginning an education program with the district for the first time, shall submit a certification within 120 days of beginning the education program, that the student has received a dental screening within the previous 12 months.

The certification is not required if the parent or guardian provides a statement to the district that:

1. The student submitted a certification to a prior education provider;
2. The dental screening is contrary to the religious beliefs of the student or the parent or guardian of the student; or
3. The dental screening is a burden for the student or the parent or guardian of the student in the following ways:
 - a. The cost of obtaining the dental screening is too high;
 - b. The student does not have access to an approved screener;
 - c. The student was unable to obtain an appointment with an approved screener.

The certification may be provided by a licensed dentist, a dental hygienist or a health care practitioner as defined by state law. The certification must include the:

1. Student's name;
2. Date of screening; and
3. Name of entity conducting the dental screening.

The district shall submit to the Oregon Department of Education a report that identifies the percentage of students who failed to submit the certification for the previous year, no later than October 1 of each year.

If the district is causing the dental screening to be conducted, the district will follow the requirements of law.
