

**Milton-Freewater
School District 7**

Code: **JHF**
Adopted: 11/23/93

Student Safety

The Board directs the development and approval of a Health, Safety and Emergency Plan. The plan is designed to assure every student a safe, healthy environment in which to learn. The plan will comply with federal, state and local laws and regulations and with Board policy.

Local building safety and health committees will ensure that general safety regulations are reviewed with staff and students as appropriate to assure student safety.

Instruction in courses in industrial arts, science, homemaking, art, physical education, health and safety will include and emphasize accident prevention.

Safety instruction will precede the use of materials and equipment by students in applicable units of work in the courses listed above. Instructors will teach and enforce all safety rules set up for these particular courses. Rules will include, but not be limited to, wearing protective eye devices in appropriate activities.

In courses where formal instruction is required, students will be asked to sign off upon completion of reading safety policies and materials and upon the completion of safety instruction.

END OF POLICY
