

Morrow County School District

Code: **EB**
Adopted: 11/12/96
Readopted: 5/12/03
Orig. Code(s): 8100

Safety Program

The minimum standards for public schools require each local school district to be responsible for the management of the comprehensive employee – student emergency plan and safety program for all departments and programs under its jurisdiction. The Board instructs the superintendent to take all necessary and appropriate means to provide for the health and safety of all students and employees.

The superintendent will arrange for each school site to appoint a building safety committee. Each safety committee will be composed of the principal, at least one teacher, at least one classified and at least one other employee. The committee will meet once each month during the school year. An agenda and minutes will be prepared for each meeting, with copies forwarded to the superintendent.

In addition to the safety inspection practices required in the accompanying administrative regulation, the building safety committee will complete a walk-through safety inspection of the building and grounds at least three times each year.

The superintendent or his/her appointee shall serve as the district's safety officer.

END OF POLICY
