Talented and Gifted Program

The district provides the opportunity for students enrolled in its schools to acquire the competencies which are necessary for effective life; to realize their maximum potential in social, moral, intellectual, emotional and physical development; and to assume both individual and group responsibility in our society.

There is a need for extended program opportunities for talented and gifted (TAG) individuals, as specified by state statute. The district TAG program is designed to provide for this group.

The Board directs the superintendent to develop and maintain procedures that are in compliance with all applicable statutes and rules, including provisions for parent appeals of the identification process and/or placement of his/her student in the district's talented and gifted program or program and services appropriateness.
