

Sexual Harassment

The Board is committed to the elimination of sexual harassment in district schools and activities. Sexual harassment is strictly prohibited and will not be tolerated. This includes sexual harassment of students or staff by other students, staff, Board members or third parties. "Third parties" include, but are not limited to, school volunteers, parents, school visitors, service contractors or others engaged in district business, such as employees of business organizations participating in cooperative work programs with the district and business organizations participating in cooperative work programs with the district and others not directly subject to district control at interdistrict and intradistrict athletic competitions or other school events. "District" includes district facilities, district premises and nondistrict property if the student or employee is at any district-sponsored, district-approved or district-related activity or function, such as field trips or athletic events where students are under the control of the district or where the employee is engaged in district business.

Sexual harassment of student and staff will include, but is not limited to, unwelcome sexual advances, requests for sexual favors and other verbal, nonverbal or physical conduct of a sexual nature when:

1. The conduct or communication has the purpose or effect of demanding sexual favors in exchange for benefits;
2. Submission to or rejection of the conduct or communication is used as a basis for educational decisions affecting a student or employment or assignment of staff;
3. The conduct or communication is so severe, persistent or pervasive that it has the purpose or effect of unreasonably interfering with a student's educational performance or with an employee's ability to perform his/her job; or creates an intimidating, offensive or hostile educational or working environment. Relevant factors to be considered will include, but not be limited to, did the individual view the environment as hostile; was it reasonable to view the environment as hostile; the nature of the conduct; how often the conduct occurred and how long it continued; age and sex of the complainant; whether the alleged harasser was in a position of power over the student or staff member subjected to the harassment; number of individuals involved; age of the alleged harasser; where the harassment occurred; and other incidents of sexual harassment at the school involving the same or other students or staff.

Examples of sexual harassment may include, but not be limited to, physical touching or graffiti of a sexual nature, displaying or distributing of sexually explicit drawings, pictures and written materials, sexual gestures or obscene jokes, touching oneself sexually or talking about one's sexuality in front of others or spreading rumors about or rating other students or others as to appearance, sexual activity or performance.

All complaints about behavior that may violate this policy will be promptly investigated. Any student or employee who has knowledge of conduct in violation of this policy or feels he or she is a victim of sexual

harassment must immediately report his/her concerns to their immediate supervisor, building principal or superintendent. A student may also report concerns to a teacher, counselor or school nurse, who will promptly notify the appropriate district official. The student and the student's parents or staff member who initiated the complaint will be notified of the findings of the investigation and, if appropriate, that remedial action has been taken.

The initiation of a complaint in good faith about behavior that may violate this policy will not adversely affect the educational assignments or study environment of a student complainant. There will be no retaliation by the district against any person who, in good faith, reports, files a complaint or otherwise participates in an investigation of inquiry of sexual harassment.

It is the intent of the Board that appropriate corrective action will be taken by the district to stop the sexual harassment, prevent its recurrence and address negative consequences. Students in violation of this policy will be subject to discipline up to and including expulsion and/or counseling or sexual harassment awareness training, as appropriate. The age and maturity of the student(s) involved and other relevant factors will be considered in determining appropriate action. Employees in violation of this policy will be subject to discipline, up to and including dismissal and/or additional sexual harassment training, as appropriate. Other individuals whose behavior is found to be in violation of this policy will be subject to appropriate sanctions as determined and imposed by the superintendent or Board.

Additionally, the district may report individuals in violation of this policy to law enforcement officials. Licensed staff and those participating in practicum programs, as specified by Oregon Administrative Rules, will be reported to the Teacher Standards and Practices Commission.

The superintendent will ensure appropriate periodic sexual harassment awareness training or information is provided to all supervisors, staff and students and that annually, the name and position of district officials responsible for accepting and managing sexual harassment complaints are readily available. This policy as well as the complaint procedure will be made available to all students, parents of students and staff.

The superintendent will establish a process of reporting incidents of sexual harassment.
