

Myrtle Point School District 41

Code: **IGAJ-AR**
Adopted: 4/09/01
Readopted: 12/10/07
Orig. Code(s): IGAJ-AR

Traffic Safety Education

The following procedures shall be used in implementing the district's traffic safety education program.

Tuition Rate

Each year prior to the Board's July organization meeting, the superintendent will provide the Board with data regarding the district's traffic safety education program. The data shall include the number of available "slots," the number of "slots" filled, the number of resident and nonresident students enrolled, the cost of the program, the amount of state reimbursement and other appropriate information. From this data, the superintendent may propose a tuition rate for Board adoption annually.

Nonresident Student Enrollment

Each August the superintendent will identify districts that might benefit from the district's traffic safety education program.

The superintendent will send a letter inviting nonresident student application. Such application shall establish a "waiting list." The waiting list shall be based upon a "first come, first served" basis. When the resident student enrollment is established, the waiting list will be activated. All nonresident students shall be required to pay a tuition fee to participate in the traffic safety program as determined by the Board.

All students shall be subject to the district's code of conduct, policies and procedures. Violation may result in disciplinary action up to and including removal from the traffic safety education program.

Reduction or Waived Tuition

When a student requests a waiver or reduction of the established fee for traffic safety education, the building principal shall review the request.

The building principal shall only consider students who qualify for free or reduced-price meals under the federal child nutrition program or students whose family believes the tuition is a severe hardship. Under these conditions, the building principal may waive the tuition.
