

Myrtle Point School District 41

Code: **IIBG**
Adopted: 11/08/99
Orig. Code(s): IIBG

Technology

Myrtle Point School District recognizes that available and developing technologies provide tools essential to the efficient and effective operation of our schools and are vital to the teaching/learning process. To ensure that all staff and students receive adequate access to appropriate technology and the training to use it effectively, the following policies shall apply:

1. The purpose of technology is to equip students and staff to become productive and resourceful life-long learners through the access to information and the tools to process it;
2. All computer users shall understand and comply with existing copyright laws;
3. District staff shall be permitted to borrow hardware and software in compliance with approved building policies;
4. All hardware purchases shall meet standards to assure compatibility with existing and planned programs, and the hardware inventory shall be updated annually;
5. All software shall be previewed prior to purchase to assure compatibility with existing and planned programs, and the software inventory shall be updated annually;
6. The district shall provide staff development activities for all staff appropriate to their assignments;
7. To support effective use of technology in the classroom, the District will prepare annual technology budgets that includes staff development, hardware and repair, software and updates, dues and fees, etc.;
8. Building administrators and staff shall meet regularly with the District technology coordinator to develop, implement, and monitor the practices to support these policies.

END OF POLICY
