## Policy Implementation

The superintendent is responsible for implementing Board policies and for interpreting them to staff, students and the public. Other administrators share in this responsibility.

Many of the Board's policies require implementing regulations. The superintendent will develop these regulations, in consultation with administrators, staff members and other persons and groups as appropriate, and will submit them to the Board.

Policies officially adopted by the Board and other administrative regulations formulated to implement adopted Board policies will be included in the School Board Policy Handbook and Regulations. Staff, student and parent handbooks also will be used for disseminating policies and regulations to persons directly affected by them. Each school shall provide at least one copy of the Board's policy manual in the school's library and one copy in the business office. Each employee will be specifically notified of the existence and availability of personnel policies.

Administrators are authorized to establish rules and procedures for the staff and student bodies of their schools as long as these rules and procedures are consistent with policies and regulations established by the Board and superintendent.
