Admission of Nonresident Students

Students who meet eligibility prerequisites for admission, but who do not reside in, or whose parents do not reside in, the district must gain approval for admission from the superintendent.

The superintendent reserves the right to accept/reject nonresident students based upon the availability of space, resources, personnel, appropriate programs and/or a positive review of the student's education records. The district may refuse to enroll a student expelled by another school district for the duration of the expulsion period.

The district may enroll nonresident students as follows:

1. By written consent of the affected school representatives. The student becomes a "resident student" of the attending district thereby allowing the attending district to receive State School Fund monies. An inter-district transfer request must be approved by both the attending and the resident districts.
2. If an inter-district transfer agreement is not approved by both the attending and the resident district, the nonresident student may be allowed to pay tuition at the rate established by the Board. In this instance, neither district is eligible for State School Fund dollars.
3. If a juvenile court determines it is in the student's best interest, a student placed in a substitute care program outside the district will continue to be considered a resident student and allowed to attend the school the student attended prior to placement. The public agency placing the student in a substitute care program will be responsible for the transportation of the student, if public agency funds are available.
