## **Special Education - Free Appropriate Public Education (FAPE)\*\***

1. The district admits all resident school-age children with disabilities and makes special education and related services available at no cost to those:
  - a. Who have reached five years of age but have not yet reached 21 years of age on or before September 1 of the current school year, even if they are advancing from grade to grade;
  - b. Who have not graduated with a standard high school diploma;
  - c. Who have been suspended or expelled in accordance with special education discipline provisions; or
  - d. Who reach age 21 before the end of the school year without a standard or modified diploma. These students remain eligible until the end of the school year in which they reach 21 years of age.
2. The district determines residency in accordance with Oregon law.
3. The district takes steps to ensure that its children with disabilities have available to them the variety of educational programs and services available to nondisabled children in the area served by the district and provides a continuum of services to meet the individual special education needs of all resident children with disabilities, and children with disabilities who are enrolled in public charter schools located in the district.
4. The district may, but is not required to, provide special education and related services to a student who has graduated with a standard diploma.
5. State law prohibits the district from recommending to parents, or requiring a child to obtain, a prescription for medication to affect or alter thought processes, mood or behavior as a condition of attending school, receiving an evaluation to determine eligibility for early childhood special education or special education, or receiving special education services.
6. If the Individualized Education Program (IEP) team determines that placement in a public or private residential program is necessary to provide FAPE, the program, including nonmedical care and room and board, must be at no cost to the parents of the child.
7. If a parent revokes consent for a student receiving special education and related services, the district will not be considered to be in violation of the requirement to make FAPE available to the student because of the failure to provide the student with further special education and related services.

Special Education - Free Appropriate Public Education (FAPE)\*\*

– IGBAJ

\*\* As used in this policy, the term parent includes legal guardian or person in a parental relationship. The status and duties of a legal guardian are defined in ORS 125.005 (4) and 125.300 - 125.325. The determination of whether an individual is acting in a parental relationship, for purposes of determining residency, depends on the evaluation of the factors listed in ORS 419B.373. The determination for other purposes depends on evaluation of those factors and a power of attorney executed pursuant to ORS 109.056. For special education students, parent also includes a surrogate parent, an adult student to whom rights have transferred and foster parent as defined in OAR 581-015-2000.
