Continuing Professional Development – Licensed

The Board recognizes the need to establish a Continuing Professional Development (CPD) program for all licensed staff to enhance professional performance, promote achievement of high standards for all students and assist employees in meeting the licensure requirements of Teacher Standards and Practices Commission (TSPC).

Employee CPD plans shall be consistent with the district's mission and goals, assist educators in meeting the requirements for license renewal as identified in OAR Chapter 584, Division 090, and may contain such other provisions as deemed appropriate by the district.

Individual CPD plans shall be developed collaboratively by the employee and his/her supervisor. The primary purpose of the CPD plan activities is to increase student learning by enhancing the professional skills of the employee. Such activities may relate to the individual's current or potential future assignment as determined by the district. Appropriate learning activities may include, but are not limited to, college courses, workshops, conferences, curriculum development, research, peer or student-teacher mentoring and other approved individual and committee endeavors.

Meetings or conferences for which district funds are contributed, whether for fees, travel or hiring of substitutes, shall directly relate to the employee's CPD plan. Where such meetings or conferences are devoted primarily or exclusively to organizational or business affairs of associations of educators, political workshops, training sessions for consultation committees and like activities, it is not considered appropriate for the district to expend district funds or to approve the activity for CPD credit.

The superintendent shall develop administrative regulations and/or other related materials as needed to implement this policy. Regulations shall include CPD procedures and practices that incorporate plans for the district's improvement and individual building, grade level, student and employee needs and goals.
