Use of Feature Films/Videos**

The Board recognizes that some use of commercially produced and rated films, video cassettes, television programs, DVDs or other commercial media may have a legitimate purpose in the school's educational program. However, since the content of these media is not customarily designed for educational purposes, the Board believes that certain precautions should be taken to ensure that the showing of a media is consistent with the educational goals of the district.

The superintendent shall develop administrative regulations to implement this policy.
