Buildings and Grounds Security

The Board encourages close cooperation with local police and fire authorities and insurance company personnel in planning and carrying out proper security measures.

The superintendent will control access to buildings as is appropriate and necessary under the circumstances.

Building principals will control access to their buildings and will provide safeguards against unauthorized access to these buildings. Each building principal, with approval of the superintendent, will develop regulations designed to control the use of building keys and to ensure that buildings are adequately closed and locked when no authorized personnel are present. Staff or students who fail to obey such regulations may be disciplined, suspended or dismissed.
