

Copyrights and Patents

The Board asserts the district's proprietary rights to publications, instructional materials and devices prepared by district employees during their paid work time. The Board also recognizes the importance of encouraging its professional staff to engage in professional writing, research and other creative endeavors. Publications, articles, materials, models and other items produced for district use with district time, money and facilities by school personnel as part of their job responsibilities remain the property of the district.

The district will apply for copyrights and patents when deemed appropriate by the superintendent.

In the event that an employee produces items described above partly on his/her own time and partly on district time, the district reserves the right to claim full ownership. The employee, however, may petition the district for assignment of copyright or patent rights. Employees will not attempt to copyright or patent any item described without the knowledge and consent of the superintendent.

Employees who intend to make application to patent or copyright any item will furnish to the superintendent full, complete and prompt information and disclosure with respect to any such item.

If the district does not take appropriate action to see a patent or copyright within three months after full disclosure by the employee involved, the district will be deemed to have waived and relinquished any interest in the item.
