

Evaluation of Instructional Programs

The North Marion District is dedicated to a continuous system of monitoring, evaluating and improving instructional programs. The success of individual students will be the primary indicator of a successful instructional program.

Auditing the instructional program will be a cooperative effort among teachers, administrators and Board members.

The districtwide evaluation program will be implemented on three (3) levels. At the district level, concern will be directed at coordination and continuation of district learning programs. At the building level, emphasis will be placed on improvement of instruction and meeting of stated objectives. Classroom teachers will utilize evaluative data primarily in the analysis of individual student progress.

The district curriculum committee (department heads) will be responsible for the on-going assessment of curriculum, grades K-12. Included in its responsibilities will be development of systems and procedures for facilitating smooth vertical and horizontal coordination in the curriculum.
