**Field Trips and Special Events**

The Board recognizes the value of special activities to the total school program. Further, the Board supports the concept that students need to be allowed to participate in and profit from carefully planned learning experiences, which fall outside of the regular school program or day.

The superintendent may authorize field trips and other activities involving travel when such trips or activities contribute substantially to the achievement of desirable educational goals.

In planning and authorizing such trips, primary consideration will be given to the educational values to be derived, the value of the activity as it relates to the loss of other classroom or instructional time, the safety and welfare of students involved, the community standards of conduct and behavior on the part of all participants and the selection of appropriate adult supervision.

All out-of-state travel must have prior approval from the Board.
