

Transfers to and from a Nonresident District

The North Santiam School District reserves the right to accept/reject transfers to or from a nonresident district based upon the availability of space, resources, personnel, appropriate programs and a positive review of the student's educational, attendance, and behavioral records.

Criteria

The district may consider a transfer out of the North Santiam School District if:

1. Unusual academic needs or abilities can be met more readily by school services available in a nonresident school district; or
2. School transportation can be met more conveniently and efficiently by the nonresident school district for students living in a remote areas; or
3. Unusual disciplinary or emotional problems can be met more readily by school services available in a nonresident school district; or
4. Changing school mid-year (due to a family housing change) would disrupt the student's educational and emotional progress; or
5. The parent are employed within the nonresident district; or
6. Daycare is provided in the nonresident district and transportation is an issue.

If a juvenile court determines that it is in the student's best interest to be placed in a substitute care program outside the district, the student will continue to be considered a resident student and be allowed to attend the school the student attended prior to placement. The public agency placing the student is responsible for the transportation costs.

The district may enroll non-resident students by written consent of the superintendent or designee. Once both districts approve of the transfer, the student becomes a "resident pupil" of the attending district thereby allowing the attending district to receive Basic School Support Fund moneys. The district may unilaterally admit with tuition a nonresident student whereby neither district is eligible for Basic School Support Fund money.

Transfers into District

The district may enroll nonresident students as follows:

1. By written consent of the affected school boards. The student becomes a “resident pupil” of the attending district thereby allowing the attending district to receive State School Fund moneys;
2. By written consent from the school board for the district in which the school is located as provided by Board policy. The student becomes a “resident pupil” of the attending district thereby allowing the attending district to receive State School Fund moneys;
3. By unilaterally admitting with tuition a nonresident student whereby neither district is eligible for State School Fund moneys;
4. If a juvenile court determines it is in the student’s best interest, a student placed in a substitute care program outside the district will continue to be considered a resident student and allowed to attend the school the student attended prior to placement. The public agency placing the student in a substitute care program will be responsible for the transportation of the student, if public agency funds are available.

The Board shall deny regular school admission to nonresident students who are under expulsion from another for a weapons policy violation. The Board may, based on district criteria, deny admission to nonresident students who are under expulsion from another district for reasons other than a weapons policy violation.

Consent by Affected Boards

The Board reserves the right to accept/reject nonresident students based upon the availability of space, resources, personnel, appropriate programs, and a positive review of education records.

The Board may consider situations such as:

1. Students with unusual academic needs or abilities that can be met more readily by school services available in a nonresident district;
2. Students living in remote areas whose school transportation can be met more conveniently and efficiently by the nonresident district;
3. Students with unusual disciplinary or emotional problems who would have a greater ability to succeed in the environment of the nonresident district;
4. Students whose parents move from the district during a school year; and
5. Students whose parents are employed within the nonresident district.

Consent of Board for the District in which the School is Located

It is the Board's right to limit consent based on school, grade or the combination of both or to decide not to give consent to any person under this process. Annually, by March 1, the Board shall establish the number of students to whom consent will be given for the upcoming school year. Applications for consent shall be submitted no later than April 1, prior to the year of requested consent. If the number of students seeking consent exceeds the number of students the Board has determined will be given consent, consent will be based on an equitable lottery selection process.

For the 2012-13 School Year, the Board assumes its right to accept no students through an open enrollment policy.

The Board may not deny consent or give priority based on race, religion, sex, sexual orientation, ethnicity, national origin, disability, terms of individual education program, income level, proficiency in the English language or athletic ability.

The district is not required to provide transportation outside the boundaries of the district. The student will be allowed to use existing bus routes and transportation services of the district. Transportation will be provided if required by federal law.

By May 1, the district shall provide written notification of attendance to the district of the student's legal residence.

END OF POLICY
