

Inter-District Transfer of Resident Students

The district offers a variety of programs and services designed to meet the individual needs of its students. Nevertheless, the Board recognizes there may be circumstances that arise in which a resident student may benefit from attendance in another public school in the state. Consequently, a student who resides within district boundaries may be released to attend school in another district that agrees to accept the student. The agreement will be by written consent of the affected school boards or designees whereby the student becomes a "resident student" of the attending district, allowing the attending district to receive State School Fund moneys. Any additional fees or tuition costs are the responsibility of the parent.

The Board recognizes there may be circumstances that arise under the No Child Left Behind Act of 2001, when it is necessary to release a student who resides within the boundaries of the district to attend school in another district that agrees to accept the student.

The superintendent may consider for approval requests that meet one or more of the following criteria:

- 1 An exceptional educational, safety or health condition affecting the student would likely be improved as a result of the transfer. "Would likely be improved" means it is probable, in the judgment of the district, that the nature and effect of the benefit to be received will be real and meaningful;
- 2 There is some other special hardship or detrimental condition affecting the student or his/her immediate family, which would be alleviated as a result of the transfer. "Special" means a circumstance or factor not generally applicable to other students or families. "Hardship" and "detrimental condition" apply to any circumstance or factor, which has a harmful effect on the student or his/her immediate family, and is not restricted to a financial, educational, safety or health condition.

In all cases that the district approves the release of a resident student, the student or his/her parent(s) will be solely responsible for transportation, unless as otherwise required by law. The Board recognizes that resident students under the Individuals with Disabilities Act (IDEA) remain the primary responsibility of the District. District consideration of transfer requests by students under IDEA will meet the requirements of state and federal law. The superintendent is directed to establish procedures for the review of student requests to attend school in another school district.
