

Student Safety

The Board directs the development and approval of a Health, Safety and Emergency Plan. The plan is designed to assure every student a safe, healthy environment in which to learn. The plan will comply with federal, state and local laws and regulations and with Board policy.

Each school location will have a safety and health committees appointed by the principal which meets each month from September to June. The committee will ensure that general safety regulations are reviewed with staff and students as appropriate to assure student safety.

The committee will also make periodic inspections of facilities and identify unsafe conditions observed. These will be forwarded to the principal for action.

The committee may also propose safety programs to the principal who will take appropriate action.

Instruction in courses in industrial arts, science, homemaking, art, physical education, health and safety will include and emphasize accident prevention.

Safety instruction will assist students to:

1. Learn how to work, play and exercise safely and how to prevent accidents;
2. Learn proper procedures to reduce the possibility of accidents;
3. Develop habits of good housekeeping, proper storage and handling of materials;
4. Become familiar with personal protective devices and the proper clothing to be worn for safety purposes;
5. Develop skills in the safe use of tools and equipment;
6. Learn how to cooperate with others in the promotion and operation of a safety program in the school.

Safety instruction will precede the use of materials and equipment by students in applicable units of work in the courses listed above. Instructors will teach and enforce all safety rules set up for these particular courses. Rules will include, but not be limited to, wearing protective eye devices in appropriate activities.
