

North Santiam School District

Code: **KG**
Adopted: 3/18/85
Readopted: 2/26/90; 1/18/01; 7/21/11

Community Use of School Facilities

The Board recognizes the following principles governing the use of school properties by students and community groups whose goals and membership are not directly related to the curriculum or who does not have membership in the Associated Student Body (ASB) of a school within the district:

1. School buildings have been provided by the taxpayers primarily for the purpose of providing educational facilities for the students of the district;
2. Recreational activities are a part of the total education of students;
3. Education extends beyond the age of adolescence and into adulthood;
4. All citizens participate in paying the costs of school construction and operation;
5. Use of school buildings and property by citizens of the community increases the return to the public for its investment in school property;
6. School facilities should be made available under capable and responsible adult supervision for community activities.

Regulations

Subject to this policy, governing use including the regulations attached and by this reference incorporated herein, school facilities, including both buildings and grounds, will generally be made available for student and community use at times when that use does not conflict with school-sponsored activities and is outside the school day.

Fee Schedule

The district shall assess fees according to the appropriate administrative regulation.
