

# Nyssa School District 26

Code: **EEAB**  
Adopted: 6/11/01  
Revised/Readopted: 10/13/08; 11/14/16  
Orig. Code(s): EEAB

## School Bus Scheduling and Routing

When designing district school bus routes, safety is the primary concern. Students qualifying for transportation shall board buses at designated pickup points on routes established after taking into consideration the safety of the students, road conditions, economy of operation and student convenience. The routes and pickup points are subject to change as the above considerations warrant.

Buses will not be operated on private roads. Written permission must be obtained from the owner for use of bus turnaround on private property. Buses will only be operated on roads that are regularly maintained in good condition. Dead-end roads must have a safe and adequate turnaround available. Whenever practical, buses will be routed to pick up and let students off on their residence side of the street or road.

Buses will maintain a fixed schedule as far as weather and road conditions permit and will not wait for students beyond the scheduled time of departure from a pickup point.

On regular daily bus routes, musical instruments, sports equipment or anything larger than that which can be held by the student or placed under a seat will not be allowed. Nothing will be allowed in the aisles or step well of the school bus. Transporting large items is the responsibility of the student or their parent(s).

### Bus Stops

Buses will pick up and let off students only at designated bus stops, to be determined by the bus supervisor. Exceptions may be made for a student with disabilities or for reasons of safety or student control.

A student who wish to get off buses at a place other than at school or their regular home stop must have a written request from a parent. A written request must have approval of the [building principal] prior to presentation to the bus driver.

END OF POLICY
