Field Trips and Special Events**

The Board recognizes the value of special activities in the total curriculum and agrees that students profit from carefully planned experiences.

Field trips and other student activities involving travel may be authorized by the superintendent or his/her delegated representative when such trips and/or activities contribute substantially to the achievement of desirable educational goals. In planning and authorizing such trips, primary consideration will be given the experiences to be derived and the safety and welfare of the students involved. Each principal will create an administrative rule, specific for their building, addressing the following items:

1. Adult-student ratios;
2. Gender specific supervision for overnight trips;
3. Pre-activity meetings explaining rules and expectations;
4. Rules for denial of activity privilege;
5. Background checks for chaperones;
6. Prior Board approval provisions;
7. Rules and expectations of student behavior.
