

## School Bus Scheduling and Routing

Actual bus stops and routes will be determined by the transportation supervisor and will be based upon efficiency, safety, Board policy and applicable state and federal laws and regulations.

The determination of safe roads for school bus travel will be made by the transportation supervisor. School bus service will be limited to paved (black-topped or concrete), oiled or existing gravel roads unless otherwise directed by the superintendent.

The superintendent will:

1. Annually review and assess school bus routes, stops and loading zones for safety, changing student population and supervision of students;
2. Advise parents of any changes in transportation policy affecting their students as early as possible and be responsive to parents calling for assistance in seeking alternatives to busing;
3. Work with cities, the county and other appropriate governmental agencies on a continuing basis to inform them of transportation problems.

END OF POLICY
