Selection of Architect and/or Engineer

The Board will employ a registered architect or engineer to design the plans of each proposed building, building addition or extensive renovation.

In selecting architects or engineers, the following criteria will be considered:

1. Experience in school construction;
2. Evidence of relevant experience in the design and construction of facilities that provide appropriate accessibility and usability for persons with disabilities;
3. Creative design ability;
4. Technical knowledge to control the design so that the best results are obtained for the least amount of money;
5. Executive and business ability to oversee the proper performance of contracts;
6. Proven ability in all of the major phases of planning and construction: pre-design, planning, schematic design, design development, bidding and construction;
7. Ability and temperament to work cooperatively with others and willingness to consult with staff on educational specifications;
8. Extent and experience of staff in relation to the scope of the planned project.

The architect and/or engineer will be selected by the Board on the basis of the above criteria and will be employed under a contract.
