

Academic Achievement**

The Board feels it important that teachers have as much and as accurate knowledge of student achievement as possible in order to assess their needs and growth; thus, a sharing of information among parent, teacher and student is essential.

The district shall ensure that all students have the opportunity to demonstrate proficiency in the knowledge and skills of the student's current grade level. Students who fail to meet or who exceed all of the standards at any grade level, will be offered additional services or alternative public education options.

The Board directs staff to follow these guidelines in measuring and reporting student progress:

1. Parents will be informed at least annually, of their student's progress to meet or exceed grade level academic content standards, including but not limited to:
 - a. Information on progress in each subject area, including major goals used to determine the information;
 - b. Specific evidence of student progress on the continuum of knowledge and skills (academic content standards) of a subject area, upon request from a parent;
 - c. Student scores on all state and local assessments indicating any of the requirements that have been waived for the district or the individual and time periods for the waiver; and
 - d. Student progress toward completion of diploma requirements to parents of students in grades 9-12, including credits earned, demonstration of extended application and demonstration of the Essential Skills.
2. Parents will be alerted and conferred with as soon as possible when a student's performance or attitude becomes unsatisfactory or shows marked or sudden deterioration;
3. Grades and/or portfolio content assessment will be based upon academic performance and will not include student attitude or behavior. Grades will not be used for disciplinary reasons. Attendance or misconduct shall not be the sole criterion for the reduction of a student's grade. Behavior performance shall be reported separately;
4. At comparable levels, the school system will strive for consistency in grading and reporting except as this consistency is inappropriate for certain classes, students or grade levels;
5. When grades are given but the student is evaluated in terms of progress, and provide a realistic appraisal of the student's standing in relation to his/her peers;

6. The school staff will take particular care to explain to parents the meaning of marks and symbols used to reflect student performance.
