Homework

The term “homework” refers to an assignment to be prepared outside of class or during a period of supervised study in class. The purposes of homework are to improve the learning processes, to aid in the mastery of skills and to create and stimulate interest on the part of the student.

The information for any homework assignment should be clear and specific so that the student can complete the assignment. Homework should not require the use of reference materials not readily available in most homes, school libraries or the public library and should require the use of those materials only when the student has had instruction in such use. Teachers are to evaluate student performance on homework and give students feedback, as soon as possible, about their performance.
