Readopted: 11/05/07
Orig. Code(s): 1410

Policy Development

The Board has the authority and responsibility to establish policy. The Board accepts the definition of policy set forth by the National School Boards Association:

School Board policies are statements which set forth the purposes and prescribe in general terms the organization and program of a school system. They create a framework within which the superintendent and his/her staff can discharge their assigned duties with positive direction. They tell what is wanted.

The formulation and adoption of policies, recorded in writing, will constitute the basic method by which the Board will exercise its leadership in the operation of the school system.

The policies shall be consistent with Oregon Revised Statutes, Oregon Administrative Rules and all federal laws and regulations.

Policy Development and Review

The basic responsibility for initiating, reviewing, and recommending new policies or policy modification shall rest with the superintendent. However, new policies or changes in existing policy may be proposed by any Board member, group or organization, staff member, student or resident of the district. The superintendent, in developing these policies, may be guided by the recommendations of the staff and may seek community input during the preparation and subsequent review of policy statements. Advice from legal counsel may be appropriate.

The Board shall regularly review and update policy and shall evaluate the implementation-and effect of policies. The superintendent is given continuing responsibility to call to the Board's attention all policies that appear to need revision. The superintendent will furnish necessary background information and make all final policy recommendations to the Board.
