Credit for Proficiency

The district recognizes the importance of transcript evaluation to determine the value of credits earned, number of years of school attendance and placement for students transferring to district schools from other public, private or alternative schools. Those who have been receiving home school instruction shall, for evaluation purposes, provide other documentation for evidence.

The district may grant credit toward graduation to students whose work experience, service learning, prior or alternative education or community service program provides sufficient evidence of proficiency in a particular subject area. Before granting credit, the district may require a student to pass a competency or skills assessment, to provide samples of work or other documentation/evidence of learning, or to complete any combination of the above to satisfaction of the principal in order to demonstrate a level of knowledge that meets or exceeds district academic standards.

Transfer credits and attendance may be accepted or rejected at the discretion of the district consistent with Oregon Administrative Rules. Validation of credit may be required.

The superintendent will develop administrative regulations to implement this policy.
