Attendance

Students shall attend the school serving their place of residence, or as assigned by the Superintendent under the exceptions listed below.

Attendance areas shall be established by the Superintendent, with the approval of the Board, for elementary and middle schools in the district. Attendance area boundaries may be changed in order to provide for balanced school or class loads.

The Superintendent or designee may assign and reassign students from one attendance area to another to balance enrollments in the classrooms of district schools or to place students in appropriate programs.

Other exceptions may be granted at the discretion of the Superintendent or designee for students to attend district schools outside their attendance areas when:

1. A student changes place of residence within the district during the school year.
2. A student anticipates establishing residence in a different school attendance area.
3. The student's health or educational interests, as judged by school officials, would be better served in a school in another attendance area.
4. The district is not responsible for the transportation of students who have requested to attend schools outside of their regular attendance area.
