

Admission of Nonresident Students

Non-resident students may be admitted to the district with the permission of the superintendent upon receipt of an approved "Reciprocal Interdistrict Transfer Agreement" from the resident district or payment of tuition at the rate established by the Board. The Board reserves the right to accept/reject nonresident students based upon but not limited to the availability of space, resources, personnel, appropriate programs, a positive review of education records, and the potential of the student to increase the overall welfare of the current student population.

The Board may consider situations such as: (1) Students with unusual academic needs or abilities that can be met more readily by school services available in a nonresident district; (2) Students living in remote areas whose school transportation can be met more conveniently and efficiently by the nonresident district; (3) Students with unusual disciplinary or emotional problems who would have a greater ability to succeed in the environment of the nonresident district; (4) Students whose parents move from the district during a school year; and (5) Students whose parents are employed within the nonresident district.

The district may enroll nonresident students as follows:

1. By consent of the affected school boards through their designated agent. The student becomes a "resident pupil" of the attending district thereby allowing the attending district to receive State School Fund moneys;
2. By unilaterally admitting with tuition a nonresident student whereby neither district is eligible for State School Fund moneys;
3. If a juvenile court determines it is in the student's best interest, a student placed in a substitute care program outside the district will continue to be considered a resident student and allowed to attend the school the student attended prior to placement. The public agency placing the student in a substitute care program will be responsible for the transportation of the student, if public agency funds are available.

The Board shall deny regular school admission to nonresident students who are under expulsion from another district for a weapons policy violation. The Board may, based on district criteria, deny admission to nonresident students who are under expulsion from another district for reasons other than a weapons policy violation.

The superintendent or designee will develop guidelines for the admission of non-resident students.
