

Student Searches**

1. Definitions

- a. “Reasonable suspicion” means sufficient knowledge possessed by the district official at the time the official makes or authorizes the search which would lead a reasonable person to believe that a search of a particular student or place will likely turn up evidence of a violation of law, Board policy, administrative regulation or school rule. The official’s knowledge may be based upon relevant past experience of the official, observation by the official and/or credible information from another person.
 - (1) “Past experience” may provide the district official with information relevant to the violation, as well as information which enables the official to evaluate the credibility of information from another person.
 - (2) “Credible information from another person” may include information which the district official reasonably believes to be true provided by another district employee, a student, a law enforcement or other government official or some other person.
- b. “Reasonable in scope” means that the manner and extent of the search are reasonably related to the objectives of the search, limited to the particular student or students most likely to be involved in the infraction, and not excessively intrusive in light of the student’s age, sex, maturity, and the nature of the infraction.

2. Routine Inspection of District Property Assigned to Students

- a. Lockers, desks and other storage areas provided by the school and assigned to a particular student(s) are the property of the district, remain in the possession of the district and are under the control of the building principal.
- b. Students may use district-owned storage areas for the limited purpose of temporarily keeping items needed for attendance and participation in school instructional and activity programs only. No other purpose is permitted.
- c. Students shall be provided notification that district-owned storage areas assigned to students are subject to routine inspection without prior notice for the following reasons:
 - (1) Ensure that no item which is prohibited on district premises is present;
 - (2) Ensure maintenance of proper sanitation;
 - (3) Ensure mechanical condition and safety;
 - (4) Reclaim overdue library books, texts, or other instructional materials, property, or equipment belonging to the district.

3. Voluntary Consent

When a district official has reasonable suspicion to believe that evidence of a violation of law, Board policy, administrative regulation or school rule is present in a particular district-owned storage area assigned to a student, or the clothing or the personal property of a student, the official has the option of making a search or asking the student to voluntarily provide the evidence sought. Before making a search, the official should ordinarily ask for the student's voluntary consent by requesting the student to empty the contents of the storage area, clothing or personal property. If the student refuses consent, the official may search for the evidence evaluating student and staff safety using the least intrusive search methods. The official may elect to contact the student's parents or, contact law enforcement officials to assist with the search.

4. Emergency/Dangerous Circumstance

- a. When a district official has knowledge which would lead a reasonable person to believe that either an emergency or dangerous circumstance exists and that it is necessary to act to protect the safety of any person or property, the official may make a search to the extent necessary to relieve the emergency or dangerous circumstance.
- b. In responding to such an emergency or dangerous circumstance, the actions of the official shall be reasonably effective and no more intrusive than necessary.

5. Search for Evidence of a Violation

- a. A search may be conducted of an individual student, a district-owned storage area assigned to a student, or the personal property of a student. Personal property of a student includes, but is not limited to, wallets, purses, lunch boxes/sacks, book bags, backpacks, or other containers used to carry belongings.
- b. All searches shall be based on reasonable suspicion and shall be reasonable in scope. A "strip search", requiring a student to remove clothing down to the student's underwear or including underwear is prohibited by the district.
- c. Searches will be generally conducted by a building administrator or by other school personnel only as authorized by the building administrator. In certain circumstances, a building administrator may be assisted by law enforcement.
- d. The student will generally be permitted to be present during a search of a district-owned storage area assigned to the student or during a search of the student's personal property. The student's presence is not required, however.
- e. Search of a student's clothing will be limited to the student's "outer clothing" only. "Outer clothing" means the student's coat, jacket or other such outerwear garments worn by a student. A search of the clothing may include the search of a container inside the clothing, provided that the container is of a size and shape to hold the object of the search.
- f. Searches of a student's outer clothing will be conducted by a district official of the same sex as the student whenever possible.
- g. Where the object of the search may be felt by a "pat down" of clothing or personal property, the district official may first pat the clothing or property in an attempt to locate the object before searching inside the clothing or property.

- h. Searches will be conducted in privacy, out of the view of other students, staff, and others and in the presence of an adult witness of the same sex as the student, whenever possible.
- i. Any item removed from the student as a result of the above procedures which is not evidence of a violation of a law, Board policy, administrative regulation or school rule may be returned to the student, as appropriate.

6. Other Searches¹

- a. Student vehicles may be parked on district property on the condition that the student and his/her parent(s) or guardian(s) allow the vehicle and its contents, upon reasonable suspicion, to be examined. Additionally, student vehicles on another district's property at activities under the jurisdiction of the district, including interscholastic activities sponsored by the Oregon School Activities Association (OSAA) or other such voluntary organizations approved by the State Board of Education, shall also be subject to such conditions.

If a student or parent(s) or guardian(s) refuse to allow access to a vehicle when requested under the circumstances described above, the student's privilege of bringing a vehicle onto district property will be terminated for the remainder of the school year. A refusal will subject the student to discipline up to and including expulsion, and law enforcement officials may be notified.

- b. Metal detectors, including walk-through and hand-held devices, may be used when the superintendent determines that there is a need for such detectors based upon reasonable information of a history of:
 - (1) Weapons or dangerous objects found at school, on district property, at a school function, or in the vicinity of the school; or
 - (2) Incidents of violence involving weapons at a school, on district property, at a school function, or in the vicinity of the school.

Upon positive detection, a student should ordinarily be asked to voluntarily remove the metal item. The district official may search the clothing or personal property of the student for the item if the student refuses consent or if the positive metal detection is not satisfactorily explained.

- c. Drug-detection dogs may be used when the superintendent determines that there is a need for use of such dogs based upon reasonable information of a history of:
 - (1) Drugs and/or drug paraphernalia use/possession at school, on district property, at a school function, or in the vicinity of the school; or
 - (2) Incidents of violence or health emergencies involving drugs and/or drug paraphernalia at a school, on district property, at a school function, or in the vicinity of the school.

¹Consult with legal counsel prior to implementing procedures in this section, modifying as appropriate to meet local needs.

After such need has been determined, drug-detection dogs may be used to sniff out contraband in district-owned storage areas or in student vehicles parked on district property upon reasonable suspicion to believe that contraband is in the area or vehicle.

Drug-detection dogs will not be used for general or “dragnet” searches.

Body-fluid searches of students for the presence of alcohol or drugs are prohibited except when the district has individualized reasonable suspicion to believe a student has been using controlled substances or alcohol on school premises when the student is part of a drug and alcohol program entered into by the student in lieu of suspension or expulsion.

 - (c) Unclaimed property may be disposed of in accordance with Board policy.
 - (2) Discipline up to and including expulsion and notification of law enforcement as appropriate or as otherwise required by law or Board policy.
- b. Any incident involving discipline of a student as a result of a routine inspection of district storage areas made available for student use or other searches of a student or the student’s personal property will be documented.
