Use of Feature Films/Videos**

The Board recognizes the showing of commercially produced and rated films and videos hereafter called feature films, may have a legitimate purpose in a school's educational program. Since the content of these feature films customarily is designed for general audience viewing, the Board feels certain precautions should be taken to ensure the showing of a particular film is consistent with the educational values espoused by the district. Generally, only films rated G or PG may be shown as part of the school program. In the event a PG-13 or R-rated film is identified by staff as appropriate for student viewing a request to show the film may be directed to the superintendent. The Board directs administrative procedures be developed to accomplish this objective, including the provision that a parent has the opportunity to preview a film when practicably possible and that a parent must give prior consent before his/her student may view a film rated PG.
