21st Century Schools Councils

The overall purpose of shared decision-making is to enhance student achievement through both improvement of the instructional program and delivery of support services.

Shared decision-making is part of site-based decision-making. It is a process, not an end in itself. Site-based decision-making provides an opportunity for members of a school community to collaborate, where appropriate, in solving problems, defining goals and shaping direction for an individual school or unit.

The district encourages the collaborative work of shared decision-making. Thus school site councils and/or district councils are supported.
