Orig. Code(s): 915

Special Use of School Buses

Careful examination should be given to any extracurricular use of school buses or other vehicles.

All regular transportation regulations are to be observed.

The teacher, coach or supervisor will assume responsibility for the behavior of the students. The departure and arrival times will be established by the principal or his/her designee. All matters related to the operation of the bus are the responsibility of the bus driver. The bus driver may overrule a teacher, coach or supervisor's request if, in his/her judgment, the safety of the passengers will be affected. At least one of the adult supervisors must sit in the back half of the school bus on all activity trips to ensure proper supervision.

All student activity-related transportation must be by school bus or school-owned and operated vehicles, unless otherwise approved by the administration.

Transportation will be limited to those students directly involved in the related activity who have earned the right and privilege to participate.

A student shall ride to and from the contest in transportation approved by the school. Coaches may only release a student to the custody of the student's parent or legal guardian. Any exceptions must be pre-approved by the administration.
