

### **Early Entrance into the First Grade\*\***

If a request for early admission to the first grade is received by the district, the following guidelines will be used:

1. A child attaining age six on or before September 1 qualifies for first grade. Students who are not age six may be considered for early entry;
2. The Request for Early First-Grade Entrance form must be filled out by a parent. The completion of these forms and receipt of formal evaluation results will activate the early entry committee. Members of that committee are: first-grade teachers, the speech and language therapist and building principals;
3. The parents will be made aware that it is their responsibility to secure testing by a qualified agency approved by the district.

Three areas that must be tested include: (a) cognitive (intelligence); (b) affective (social/emotional); and (c) physical.

Test scores should be in the top quartile for entering first grade.

4. All information must be received by the district on or before August 15;
5. The early entry committee will review the test information and the parent interview forms. If a student is to be considered for early entrance, the student will also be required to participate in a one-day screening/observation conducted by the district during the second week of August;
6. The screening committee will make recommendations to the superintendent, and parents will be notified by the end of the third week in August;
7. A written appeal can be made by the parents to the superintendent who may affirm, reverse or modify the early entry committee's decision. A subsequent hearing may be held with the Board if the respective decision does not meet with the approval of the parent(s).
